

Gary Richard Doman

Systems Engineer | Audio DSP | Local-First AI Runtime | Deterministic Simulation | Product Distribution Spine
Williams Lake, BC, Canada | 604-644-6337 | gdoman99@gmail.com | [GitHub](#) | [Portfolio](#) | [TizWildin HUB](#)

SYSTEMS ENGINEERING PROFILE

Independent systems builder focused on real-time audio DSP, deterministic simulation engines, local-first AI/runtime infrastructure, and product-distribution tooling. Built the Portfolio as a recruiter/sponsor proof-of-work authority node and TizWildin Entertainment HUB as the public source-of-truth spine for plugins, packs, itch inventory, release proof, JSON/LLM indexes, ARC routes, and backend/licensing docs. Strong emphasis on reproducible state, explicit authority, fail-closed validation, performance, and launch-ready documentation.

CORE TECHNICAL STACK

Languages: C++, Python, JavaScript, HTML, CSS, C#, Rust

Audio/DSP: JUCE, VST3/AU concepts, real-time processing, dynamic EQ, spectral tools, oversampling, lock-free patterns

Architecture: deterministic state machines, event logs, receipts, validation pipelines, authority-gated flows, local-first AI boundaries

Web/Product: GitHub Pages, JSON indexes, llms.txt/sitemaps, SEO routing, sponsor workflows, public proof maps, issue templates

Simulation/Rendering: Canvas2D/SVG, math-first rendering, seeded RNG, projection transforms, simulation/render separation

SELECTED ENGINEERING PROOF

FreeEQ8 - Professional Audio Plugin / DSP Flagship - [repo](#) - Open-source C++/JUCE EQ proof project covering 8-band EQ, dynamic EQ, match EQ, M/S workflows, oversampling, spectrum visualization, and linear-phase processing direction.

TizWildin Entertainment HUB - Public Source-of-Truth Spine - [live](#) - Routes audio plugins, sample packs, game/itch inventory, release proof, public-index JSON, llms.txt, sitemaps, ARC lineage, and licensing/API documentation.

ARC-Core / ARC-Neuron LLMBUILDER - Local-First AI Infrastructure - [ARC-Core](#) - Authority, receipt, proposal, validation, benchmark, and model-lifecycle architecture for governed local AI workflows and reproducible runtime state.

FreeVox8 / Voxel Audio - Creator Audio Tooling - [FreeVox8](#) - Spectral vocoder/freeze/morph/masking plugin route plus local-first visualizer/export workflows for cover-art binding and waveform-style creator assets.

Game Asset Store / Itch Inventory - Buyer-Facing Product Catalog - [HUB index](#) - Procedural asset packs, SVG tools, live backdrops, icons, sigils, pixel-game generators, preview routes, export flows, and store/product routing.

RiftAscent / Neolution - Deterministic Web Simulation Engines - [RiftAscent](#) - HTML5/Canvas-style runtime systems using deterministic math, lifecycle control, structured logging, validator-enforced state transitions, and projection-based gameplay.

PORTFOLIO, LAUNCH, AND SPONSOR WORKFLOW

Maintains a public Portfolio repo for project pages, resume, services, submission proof, sponsor task intake, and recruiter navigation.

Added HUB/portfolio sync pages, project ecosystem index, public submission tracker, services page, sponsor task menu, and issue-based work request flow.

Uses public routes and documentation to make projects reviewable by humans, search crawlers, sponsors, and AI readers.

PROFESSIONAL / FIELD EXECUTION EXPERIENCE

Independent Systems Builder - Gary Doman / GareBear99 / TizWildin: open-source portfolio, audio DSP tools, AI/runtime systems, web products, game tools, sample packs, and product-distribution infrastructure.

Journeyman Rebar Worker - 3 years: structural reinforcement installation, blueprint interpretation, crew coordination, fall protection compliance, and production schedule execution.

Topco Pallet Recycling - Surrey, BC - 2 years: commission-based high-volume pallet nailing with pneumatic equipment and industrial workflow accountability.

Additional field/work history: NAPA AUTOPRO shop support, Boathouse Restaurant, Charlie Don't Surf, Labour Ready construction and cleanup assignments.

EDUCATION AND CERTIFICATIONS

Thompson Rivers University - Williams Lake: JavaScript course

White Rock Learning Center - Grade 12

Level 1 First Aid Certified; Fall Protection Certified
