

Gary Richard Doman

Systems Engineer | Web Tools | Technical Documentation | Audio DSP | Local-First AI Runtime
Williams Lake Area, BC | 604-644-6337 | gdoman99@gmail.com | [GitHub](#) | [Portfolio](#) | [TizWildin HUB](#)

PROFESSIONAL SUMMARY

Independent systems builder with a practical mix of web tooling, technical documentation, audio DSP, local-first AI/runtime work, and procedural game/asset systems. Builds usable tools with clear README/API docs, validation notes, language-aware routes, and maintainable code. Also brings hands-on field experience from rebar, recycling, shop, and construction support roles.

CORE SKILLS

Languages:	C++, Python, JavaScript, HTML/CSS, C#, Rust
Docs / Web:	README/API docs, user guides, GitHub Pages, semantic routes, JSON indexes, SEO pages, language-aware navigation
Audio / DSP:	JUCE, VST3/AU concepts, real-time processing, dynamic EQ, oversampling, M/S, spectral tools
AI / Runtime:	Local-first AI workflows, state machines, receipts/logs, validation pipelines, benchmark/proposal tooling
Graphics / Games:	Canvas/HTML runtimes, seeded generation, SVG tools, asset exporters, procedural game tooling
Field / Operations:	Blueprint reading, rebar install, crew coordination, fall protection compliance, high-volume shop work

SELECTED ENGINEERING PROJECTS

- **FreeEQ8** - [repo](#) - Open-source C++/JUCE EQ project covering 8-band EQ, dynamic EQ, match EQ, oversampling, M/S workflow, and audio-plugin documentation.
- **ARC Language Module** - [repo](#) - Multilingual software/documentation module showing language-aware routing, CLI/API documentation, coverage notes, and readable validation reports.
- **TizWildin Entertainment HUB** - [live](#) - Public distribution hub for audio plugins, sample packs, game-asset routes, release links, JSON indexes, and licensing/API documentation.
- **ARC-Core / ARC-Neuron LLMBUILDER** - [ARC-Core](#) - Local-first AI/runtime architecture with authority flows, receipts, validation logs, proposal tools, and model-building experiments.
- **FreeVox8 / Voxel Audio** - [FreeVox8](#) - Creator-audio tooling covering vocal/spectral processing concepts, waveform-style visuals, and export-oriented media workflows.
- **RiftAscent / Game Asset Tools** - [RiftAscent](#) - HTML/canvas runtime systems, deterministic state transitions, procedural SVG tools, live backdrops, exporters, and asset routing.

PROFESSIONAL / FIELD EXPERIENCE

Independent Systems Builder - Gary Doman / GareBear99 / TizWildin | *Open-source tools, technical docs, audio DSP, AI/runtime systems, web products*

- Built and documented public projects across audio plugins, language tooling, AI systems, web demos, simulations, game assets, and creator utilities.
- Maintained README/API documentation, route maps, validation notes, issue workflows, proof pages, and lightweight product pages for public review.

Journeyman Rebar Worker | *3 years*

- Installed structural reinforcement from blueprints; coordinated with crews on physically demanding job sites while following safety and fall-protection requirements.

Topco Pallet Recycling - Surrey, BC | *2 years*

- Commission-based high-volume pallet nailing using pneumatic equipment; supported industrial workflow speed, accuracy, and equipment discipline.

Additional Field / Work History | *Various roles*

- NAPA AUTOPRO shop support, Boathouse Restaurant, Charlie Don't Surf, Labour Ready construction/cleanup assignments.

EDUCATION AND CERTIFICATIONS

- Thompson Rivers University - Williams Lake: JavaScript course
- White Rock Learning Center - Grade 12
- Level 1 First Aid Certified
- Fall Protection Certified

Reference Links & Project Proof

Live references for software, technical documentation, audio DSP, language tooling, and product/web design capability.
